Education

Jorhat Engineering College — Jorhat, Assam
B.Tech in Computer Science and Engineering; CGPA: 7.22/10 — *2024 – 2028*

Experience

Encamp Adventures — Jun 2026 – Present
Full-Stack Engineer

- Ship features across the customer website of a North-East India travel company (23,000+ travellers hosted) and two internal admin dashboards in **Next.js and React**; 200+ commits since joining
- Built booking and payment flows: online payment for camps, coupon codes at checkout, a single-screen accommodation checkout and request-to-book
- Built the Hornbill Festival and camping destination pages: curated packages with discount pricing, enquiry forms, galleries and live events that expire automatically
- On the admin side, built lead management (server-side filtering, access control, CSV export), an accommodation planner with pricing and margins, and Recharts dashboards

MechMate – mechmate.in — Aug 2026 – Present
Co-Founder & Full-Stack Developer — *Delhi NCR & Assam*

- Co-founded a doorstep bike and car repair service across Delhi NCR and Assam, with upfront pricing and WhatsApp booking
- Co-built the platform in **Next.js, Prisma and Neon PostgreSQL** on **Cloudflare Workers**: booking flow, reviews, invoicing, and an admin dashboard for profit and expenses
- Drove customer acquisition with programmatic SEO pages per city and vehicle model, Google Business Profiles and short-form video

Projects

QueueLess – Canteen Pre-Order System | *Node.js, Express, MongoDB, React* | GitHub | Live — 2026

- Built a REST API (5 resource groups, 3 roles: student, staff, admin) letting students pre-pay for canteen food and collect it with a 4-digit pickup code; deployed on Render with MongoDB Atlas
- Integrated **Razorpay** payment links with an HMAC-verified webhook; orders move through a paid → preparing → ready → collected state machine, with refunds before preparation starts
- Wrote sales reports (revenue, top items over a date range) with **MongoDB aggregation pipelines**; hardened the API with JWT auth, rate limiting, Helmet, and NoSQL-injection/XSS sanitization

LokSamadhan – Public Issue Resolution Tracker | *React, Node.js, Express, MongoDB* | Live — 2026

- Hackathon team project (4 members): citizens report civic issues, officers assign departments and move each issue through Submitted → Acknowledged → In Progress → Resolved
- Duplicate detection suggests similar existing reports before a citizen files a new one; duplicates are linked, never deleted

Achievements

- **IndiaSkills National – Top 10** in Web Technologies, representing Assam
- **IndiaSkills Regional Silver Medal** (North-East, 2025–26) and **State Silver Medal** (Assam) in Web Technologies
- **Best Coder (2024)**, Jorhat Engineering College, for competitive programming
- **Harvard CS50x** certificate (C, Python, SQL)
- Solved **180+ problems** on LeetCode in C++ (110+ Medium)

Technical Skills

Languages: C++, JavaScript (ES6+), SQL, HTML, CSS
Frameworks & Libraries: React, Next.js, Node.js, Express, Prisma, Mongoose, Qt
Databases: MongoDB, PostgreSQL
Tools & Platforms: Git, Docker, Linux, Postman, Render, Vercel, Cloudflare Workers
Concepts: Data Structures & Algorithms, OOP, REST APIs, JWT Authentication
